A Note to User

The items listed in this catalog are only those we have chosen to present basing on our years of experience in producing and using them.

However, we also know that you will need others products or other combinations.

Therefore, you can modify your own product.

Take notes. Develop your own product. Make modification on the ones you chose.

This Catalog is your workbook.

Use it and help us build better products for you. ’’

**STERILE SURGICAL
PACKS & DRAPES**

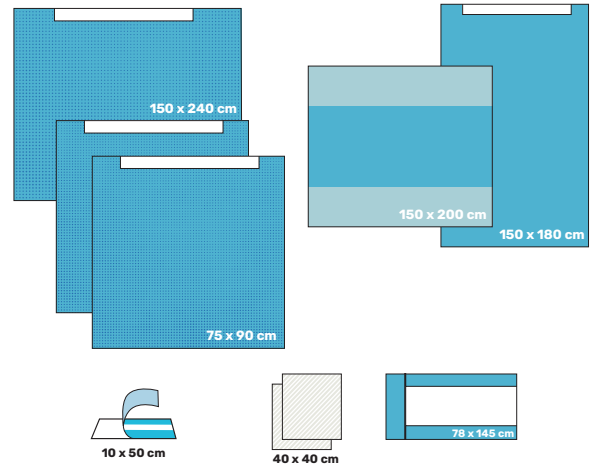

The Safest Route Is Impervious

All BROCHE drapes are designed to contribute to patient safety by providing a barrier against microbial migration. Effective infection control is achieved through impermeable materials while effective fluid control is obtained through absorption or fluid collection pouches – allowing for a drier working area.

Universal Pack With Mayo - Comfort

REF: GSST - 001

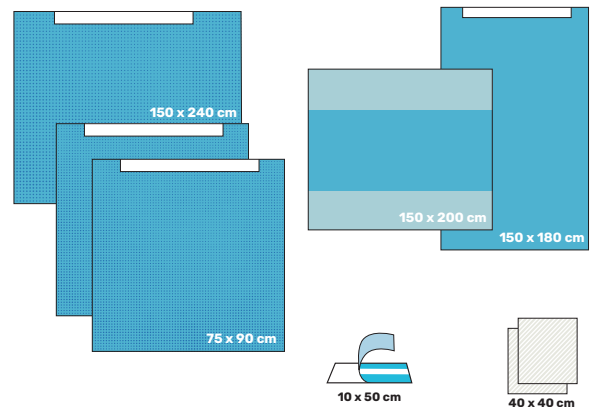

- 1 Reinforced Table Cover 150 x 200 cm
- 1 Reinforced Mayo Stand Cover 78 x 145 cm

GOWNS AND PROTECTIVE SUITS

Choose The Right Surgical Gown For The Protection

There is always a BROCHE surgical gown to suit your requirements to provide infection control during short, low-risk simple activities or long, complicated high-fluid procedures. Because uncomfortable surgical gown could put an entire procedure at risk, we have designed our surgical gowns with comfort with the material that is breathable, soft, quiet and flexible enables staff to remain focused on the job at hand.

Standard Surgical Gown

CUSTOM PACKS *CUSTOM PACKS*

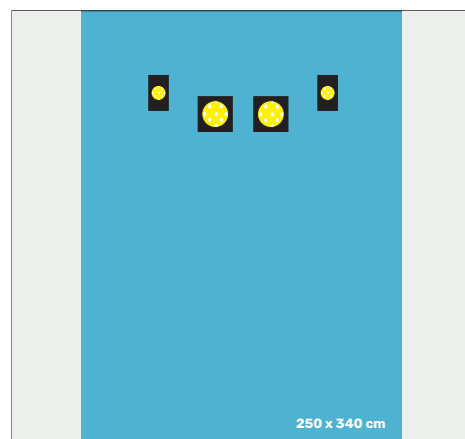

Custom Packs Efficiency

For each procedure, the staff in the operating room need to collect required items from the store unit by unit and set it all up for each procedure. Other necessary steps to get the right materials in place include stock-taking and ordering, as well as warehousing. Optimising internal processes to improve efficiency has become more and more important. Therefore a significant time-savings can be gained through implementing BROCHE CUSTOM PACKS for surgical procedures in the operating room.
